

ESG SERIES 2022

Demystifying ESG: From Aspirations to Action

ICDM PowerTalk

Complimentary / 27 – 29 June 2022

The rising expectations globally of business' central role in creating a kinder and more sustainable world have risen to the fore and with it, a slew of strategies covering areas ranging from green financing, economic and climate risk assessments, responsible investments and supply chain sustainability; all focused on accelerating the unfolding of the ESG value creation highway.

The first edition of the **PowerTalk ESG Series** will look into the 'why' and 'how' the inevitable ESG needs to be incorporated into every organisation's strategic roadmap, how companies are responding to rising investors' expectations and discovering a 360-degree view on big megatrends that are impacting the ESG + technology front.

Join our subject matter experts as they impart their insights and thoughts in mapping out the ESG journey, the importance of an effective investors' management strategy and key trends shaping the year ahead that will support a stronger sustainable growth towards the future state of businesses. Hear from some of the world's leading and most provocative thinkers as they share case study examples and perspectives, as well as practical tips on what you need to build your bespoke ESG strategies to create valuable impact, for your organisation, stakeholders and even the planet.
