

ESG SERIES 2022 - Part II

Demystifying ESG: From Aspirations to Action

ICDM PowerTalk

Complimentary / 27 July | 4 August | 11 August

As the world and Malaysia faces heightened focus on all matters ESG-related which impact corporate bottom-line and the global economy, there has come an avalanche of information on the subject matter, whether it is on sustainable leadership, economic and climate risks, reporting standards, performance measurement methodologies, and even the very definition of ESG.

As a continuation of last month's ESG Series, the upcoming sessions will look into the very character of ESG & the essential traits of a sustainable leader, setting the right narrative through your disclosures and the standards of measurement and reporting for social and climate impact, as well as how companies are addressing financial risks while balancing ESG investments.

Join our subject matter experts as they impart their insights and thoughts in mapping out the ESG journey, the importance of an effective investors' management strategy and key trends shaping the year ahead that will support a stronger sustainable growth towards the future state of businesses. Hear from some of the world's leading and most provocative thinkers as they share case study examples and perspectives, as well as practical tips on what you need to build your bespoke ESG strategies to create valuable impact, for your organisation, stakeholders and even the planet.
