

# Mandatory Accreditation Programme

Designed to formally onboard first-time directors  
of companies listed on Bursa Malaysia

12 CPD

This forward-looking programme incorporates the latest corporate governance principles and best practices to equip you with critical director knowledge and skills required to lead effectively in a highly transparent, accountable and exemplary manner.

The Mandatory Accreditation Programme (MAP) is created to formally onboard first-time directors of companies listed on Bursa Malaysia and directors of companies seeking listing on the Exchange. The programme consists of globally-benchmarked competency development modules that are designed to equip you with critical director knowledge and skills required to lead effectively in a highly transparent, accountable and exemplary manner.

The programme has been thoughtfully designed to help directors understand the essential principles of good corporate governance, their fiduciary duties, as well as develop proficiency in emerging areas such as sustainability, stakeholder capitalism, and reputation and crisis management. Amongst the key elements of the MAP modules is the sharing of practical experiences and best practices from a local and regional context by our highly experienced programme facilitators.

The MAP is also open to directors of non-listed subsidiaries of public listed companies. It can also serve as a refresher course for experienced directors seeking to boost their existing competencies. However, priority will be given to those who are required to complete the programme under Bursa Malaysia's Listing Requirements.
